LIPOSCULPT INCH LOSS

A revolutionary pain-free, non-invasive, fat busting inch loss system.

Mild low laser (cold laser) light is directed to the fat cells in your body using up to 12 paddles.

The paddles are strapped into place; **there is no discomfort, no needles are used** and there is no risk of the laser light burning the skin.

Our LIPOSCULPT machine has 8 large paddles and 4 lymph node paddles; meaning we are able to treat multiple areas at the same time. It uses a dual frequency system which is more effective than other single frequency systems.

Results are frequently seen after just one treatment

For optimal results we recommend a course of treatments (1 - 2 a week) followed by quarterly maintenance.

To ensure that you get the best out of each treatment you should exercise at least to the point of perspiration and drink a minimum of 2 litres of water in the 24 hours following your treatment.

Course of 8 sessions	£565

Please note: *Not all the treatments we offer can be performed during your LIPOSCULPT & the discount cannot be combined with any other offers or discounts.*

IPL - INTENSE PULSED LIGHT

Laser treatment for the removal of hair on the face & body and for the reduction of thread veins

This safe and effective laser treatment is available at affordable prices, with treatments performed by our fully licensed, insured and certificated laser specialists here at Beauty Be Mine.

Treatments are tailored to your individual needs, aiming to give you the optimum long term results.

IPL - HAIR REMOVAL

Intense Pulsed Light (IPL) can be used to remove unwanted hair on the face or body; The IPL is attracted to the melanin in the hair and absorbed, producing a heat reaction that destroys the hair follicle.

Treatment intervals are between 3 to 6 weeks, depending on hair type.

IPL - THREAD VEIN REDUCTION

IPL can also be used to treat thread veins (spider or broken veins) in just a few quick, easy treatments, helping to reduce overall facial redness, reduce blushing, be rid of broken veins or red spots and have clearer, fresher looking skin.

Treatment intervals are between 4 to 6 weeks.

IPL CONSULTATION

During an initial 30 minute consultation, an individual treatment plan aimed to give optimum long term results will be created for you.
